☒ I tend to be talkative, open and relatively easy to read. I need interactions with people every day to keep my "personal batteries" charged. I seem to speak without thinking sometimes.

☐ "Still waters run deep." I tend to be come across as quiet , reserved, and -even though I do have a social side-I need more peace and privacy than most people. I am likely to think without speaking.

☒ I tend to be practical and realistic. I am most comfortable dealing in the here-and-now, the real world. I keep both feet on the ground and use my senses to tell me what's real.

☐ I tend to be imaginative and creative. I am always looking toward future possibilities, asking myself what things mean on a larger scale. I am a "big picture" person-a natural innovator.

☐ I tend to be logical, and I almost always make decisions on a rational, impersonal basis-or at least, I like to think I do. Reason rules my life, and I typically value fairness over compassion.

☒ I tend to be sensitive, and I believe it's important to consider the personal element in everything I say or do. I try to be sympathetic and understanding with others.

☒ I tend to be flexible, and I can always see the other person's viewpoint in a controversy. I am more comfortable observing, listening, and taking in information that I am making decisions and judgments. I am open-minded.

☐ I like to be organized in whatever I do. I like to get to the bottom line, make decisions, know where I'm going, know where I stand, in all areas of my life. Schedules, order, structure and responsibility matter to me.
