Ph.D. Positions Available at Oregon State University, USA

If you are currently finishing an MS degree with a research focus/interest on an area related to computer communication and networking, and are interested in pursuing a PhD degree at Oregon State University under the supervision of Dr. Bechir Hamdaoui, please visit http://eecs.oregonstate.edu/~hamdaoui to familiarize yourself with the current research topics. If the research topics match your research interests, email your resume/CV to Dr. Hamdaoui at hamdaoui@eecs.oregonstate.edu. Your resume/CV must include the following:

1. Your rank in the national exam for entrance to engineering schools (if applicable)
2. Your transcripts (both BS and MS). If originals are not written in English, include both translated copies in English AND copies of the original transcripts.
3. A statement of research interests/objectives. In 1 to 2 pages, say:
   - Why do you want to pursue a Ph.D.?
   - What objectives do you expect to achieve in your Ph.D.?
   - What are your technical skills?
   - Why do you think you will be a successful Ph.D. candidate?
4. TOEFL. If not taken yet, please indicate the earliest date you could take the exam. If already taken, please provide your obtained score.
5. GRE. If not taken yet, please indicate the earliest date you could take the exam. If already taken, please provide your obtained score.
6. References for recommendation letters (contact information of at least three people).

Selected students will receive graduate assistantships that will support their study expenses. The assistantship pays school tuition fees, and offers a monthly stipend, which typically covers other expenses, such as food, housing, etc.
