Kaltura is a web-based screen-recording application. OSU owns a site license to it, which means that all students and staff can use it for free. We will use it so that you can show off your great project without you and I having to be sitting together.

You don’t need to use this video as a way to explain your report. I will read the report to get that information. Use this video as a way to show what it looks like when it runs. Show off all the required features. Show off anything you have done that is extra and cool.

If you have a microphone, use it! It is easier for me to figure out what your features do if you are telling me.

To finish grading each project, I will watch a lot of these videos. Have mercy on me and keep your video short. Show me all your different program features, but once you have demonstrated a feature, move on to the next one. Do the math – $M$ minutes per video times $P$ people in the class, gives …

Declare that you want to login as you, not as the Guest
Login with your ONID account
Ask to add a new recording using the Recording Tools

If you’ve never done this before, a plug-in will need to be installed first. The slides marked with the yellow star show this process. If you have done this before, you can skip around the yellow-star slides.
Resistance is futile
Resistance is futile
Download the proper version

The Kaltura CaptureSpace Desktop Recorder enables easy capture in class, at home or on-the-go with automated publishing and interactive viewing within the LMS and Kaltura's MediaSpace video portal.

**Download for Windows**

Windows System Requirements
- Windows 7,8,8.1 or 10 32/64 bit
- .NET Framework 4.0+
- Visual Studio runtime tools

Supported Microsoft PowerPoint Versions
- Microsoft PowerPoint 2007 32 bit
- Microsoft PowerPoint 2010 32/64 bit
- Microsoft PowerPoint 2013 32/64 bit

[Download for Windows]

**Download for Mac**

OS X System Requirements
- OS X 10.8 and up

Supported Microsoft PowerPoint Versions
- Microsoft PowerPoint 2011
- Microsoft PowerPoint 2016

[Download for Mac]
I like to just save it on the Desktop so I can easily find it later
Here’s what it looks like on the Desktop. Double-click it.
Ask to add a new recording using the Recording Tools

The Kaltura CaptureSpace Desktop Recorder

The Kaltura CaptureSpace Desktop Recorder enables easy capture in class, at home or on-the-go with automated publishing and interactive viewing within the LMS and Kaltura’s MediaSpace video portal.

Download for Windows

Windows System Requirements
- Windows 7,8,8.1 or 10 32/64 bit
- .NET Framework 4.0+

Download for Mac

OS X System Requirements
- OS X 10.8 and up
Launch the Recording Plug-in

![Launch Application dialog](image)

This link needs to be opened with an application.

Send to:

**Kaltura CaptureSpace Desktop Recorder**

Choose other Application

Remember my choice for kaltura-ic links.
This can be changed in Firefox’s preferences.

Cancel  Open link
Make sure everything is correct in the **Settings** tab.
Select what you want to do in the **Record** tab

If you have a microphone, please record your voice narrating your video. I like hearing you talk about your own stuff.

If you have a webcam, feel free to include your talking-head as well.
If you pick **Full Screen**, a **Record** button will be there. Select **Record**, and a countdown will start. When it gets to zero, you are now recording.

If you pick **Select Area**, Kaltura will allow you to drag a region of the screen to record and then will launch into the countdown.
The Kaltura menus are often hidden – click here in the Task Bar to see them
Here’s how to Pause, Stop, or Cancel your recording
When you stop recording, you will see this. Select Done.
Upload your recording

Title: Screen Capture - 2017 Mar 07 06:31:26
Description: Mandelbrot set on a Teapot

Tags: (Comma separated)
The uploading was successful – click **Close**

Note that it says **will be available**. It sometimes takes a few minutes to complete the upload. I’ve had it take as long as 10 minutes.
Go back and ask to look through your media
Select the recording you just made, select **Actions**, and ask to have it **Published**.
Select **Unlisted**, then **Save**
After it’s been declared **Successful**, select **Back**
Select the recording you just made . . .
. . . and place this URL at the top of your report where it will be easy for me to find.

Other Things You Should Know:

• You can link and embed your video in your own web pages. Click on your video to play it. Underneath the video, there's a "Share" button. Clicking this button gives you options for: "Link to Media Page", "Embed", and "oEmbed".

Copy and paste this text into your HTML

• After you leave OSU, your material stays right here on OSU’s MediaSpace. Apparently we don’t have any retention rules for now. However, that could always change, so you should be sure to save a copy of your best videos somewhere else.
Other Things You Should Know:

• You can download your MediaSpace video as an MP4 file by clicking the "Edit" button for the corresponding video in "My Media".

This is helpful if you want to let people download it and play it locally.

On this page, the "Edit" page, you will find a variant of the regular player, called the “Edit Player”. This player has a download button on it. Pressing this button will bring up a dialog box which will let you save the video as an MP4 file.
