A possible vis application??
Morphing a Cow into a Sphere
Morphing a Cow into a Cube

```
const float SIDE = 2.;
vec4 vertex = aVertex;
vertex.xyz *= 4. / length(vertex.xyz);
vertex.xyz = clamp( vertex.xyz, -SIDE, SIDE );
```

Note: the “face” in the cube cow is there because the normals were not morphed into cube normals – they were left as cow normals.
