Prof. Un-Ku Moon
KEC-4093
7-2051
moon@oregonstate.edu

TAs: Calvin Lee (leecal@oregonstate.edu)
Ahmed ElShater (elshatea@oregonstate)
Dan Taylor (taylord2@oregonstate)
Bohui Xiao (xiaob@oregonstate)

Office hours: TWR 2:30-3:30 (some conflicts expected) and by appointment (email).

TA office hours: M 4:30-6, W 10-11:30 & 4:30-6, R 4:30-6, F 2-3 in KEC atrium
T 3:30-5 & 6:30-8, W 6:30-8, R 6:30-8 in DEAR-208

Text: Microelectronic Circuits by Sedra & Smith.

Labs: Entirely by lab TAs (head TA Dan Taylor) + guidance from Don Heer (heer@oregonstate.edu). Please consult the TA of your lab directly for all labs related questions. Dan Taylor will coordinate things as needed, and Don Heer will help resolve really tough issues (if needed).

HW: Homework will not be graded based on right or wrong answers, but on the level of effort shown in what you submit each week. Each assignment is due at the beginning of the class on the date given. If you arrive late to class, you must turn it in as you walk in. Other than that, no late homework will be accepted. Your homework will be graded using one of three scores: 10, 5, or 0. A “good” amount of effort and understanding demonstrated will receive 10; no or little work will receive 0; and 5 for demonstrating your efforts somewhere in between. All homework submissions must be stapled together - not folded, paper-clipped, etc.

Exams: Exams are closed book, closed notes, and no calculator – just your pencil/pen. I will provide a “reference sheet” for the exam. This sheet will be made available well before the exam so that you’d know what to expect.

OH: Ask specific questions at the office hours, referring to my/posted lecture notes, homework solutions, etc. This means come with printed notes/solutions that I posted (or show it on your laptop).

Grading: Laboratory (from TA + Don Heer) 25%
Homework 10%
Midterm-1 20% (Tuesday May-2 in class)
Midterm-2 20% (Tuesday May-30 in class)
Final 25% (Thursday Jun-15 at 12-1:50am)
