

CS 161

Intro to CS I

Arrays vs. Structs

Quiz #10

- Get into groups of 3 - 4.
- Describe an example structure you might define.
- How would you return a struct from a function?
- How you would you create an array of these structures?

Design a Solution

- Describe an example structure you might define.
- How would you return a struct from a function?
- How you would you create an array of these structures?

Write a Program

- Using the example from design...
 - Return a struct from a function
 - Create an array of these structures
