Using *Kaltura* to Show Off Your Graphics Project To Me

Mike Bailey
mjb@cs.oregonstate.edu

Oregon State University
**What’s Up with Kaltura?**

*Kaltura* is a web-based screen-recording application. OSU owns a site license to it, which means that all students and staff can use it for free. We will use it so that you can show off your great project without you and I having to be sitting together.

You don’t need to use this video as a way to explain your report. I will read the report to get that information. Use this video as a way to show what it looks like when it runs. Show off all the required features. Show off anything you have done that is extra and cool.

If you have a microphone, use it! It is easier for me to figure out what your features do if you are telling me.

To finish grading each project, I will watch a lot of these videos. Have mercy on me and keep your video short. Show me all your different program features, but once you have demonstrated a feature, move on to the next one. Do the math – *M* minutes per video times *P* people in the class, gives …

Multimedia Tips and Tricks

OSU Computer Helpdesk Tips and Tricks
Declare that you want to login as you, not as the Guest
Login with your ONID account

[Image of a login page with the username 'mjb' entered]
Ask to add a new recording using the Recording Tools

If you’ve never done this before, a plug-in will need to be installed first. The slides marked with the yellow star show this process. If you have done this before, you can skip around the yellow-star slides.
Resistance is futile
Resistance is futile
Download the proper version
I like to just save it on the Desktop so I can easily find it later.
Here’s what it looks like on the Desktop. Double-click it.
Ask to add a new recording using the Recording Tools
Launch the Recording Plug-in

Launch Application

This link needs to be opened with an application.
Send to:

Kaltura CaptureSpace Desktop Recorder

Choose other Application  

Choose...

☑ Remember my choice for kaltura-1c links.
This can be changed in Firefox’s preferences.

Cancel  
Open link
Make sure everything is correct in the **Settings** tab
Select what you want to do in the **Record** tab

If you have a microphone, please record your voice narrating your video. I like hearing you talk about your own stuff.

If you have a webcam, feel free to include your talking-head as well.
If you pick **Full Screen**, a **Record** button will be there. Select **Record**, and a countdown will start. When it gets to zero, you are now recording.

If you pick **Select Area**, Kaltura will allow you to drag a region of the screen to record and then will launch into the countdown.
The Kaltura menus are often hidden – click here in the Task Bar to see them
Here’s how to Pause, Stop, or Cancel your recording
When you stop recording, you will see this. Select **Done**.
Upload your recording

Title: Screen Capture - 2017 Mar 07 06:31:26
Description: Mandelbrot set on a Teapot

Recorded length: 00:01:02

[OPTIONS]
- Upload
- Preview
- Save
The uploading was successful – click Close

Note that it says \textit{will be available.} It sometimes takes a few minutes to complete the upload. I’ve had it take as long as 10 minutes.
Go back and ask to look through your media
Select the recording you just made, select **Actions**, and ask to have it **Published**.
Select **Unlisted**, then **Save**
After it’s been declared **Successful**, select **Back**
Select the recording you just made . . .
... and place this URL at the top of your report where it will be easy for me to find.

Other Things You Should Know:

• You can embed your video in your own web pages. Underneath the video, there's a "Share" button. Clicking this button gives you options for "Link to Media Page", "Embed", and "oEmbed".

• After you graduate, your material stays right here on OSU’s MediaSpace. Apparently we don’t have any retention rules, at least not at for the foreseeable future..

• You can download your mediaSpace video by clicking the "Edit" button for the corresponding video in "My Media". On this page, the "Edit" page, you will find a variant of the regular player, called the “Edit Player". This player has a download button on it. Pressing this button will download the video.
