12:31:53 What are voxels?

“pixel”  Picture Element  A little square of color on the screen
“texel”  Texture Element  A little square of color in a texture image
“voxel”  Volume Element   A little cube of color
“droxel” Drone Element   Those lights on drones that make 3D images in the sky
[I made up the word “droxel”. Don’t use it. Nobody will know what you’re talking about.]
