14:11:23 How do we use DGX?

There is a noteset called "DGX System". Look in there.

14:53:59 It seems the OpenCL has more overhead compared to Nvidia CUDA?

This was such a good question that I re-implemented P5 in OpenCL and have included the timing results below. I would need to do more timing tests before some definitive conclusion could be reached.

15:17:31 Does CUDA have a command queue equivalent?

Yes.
