

CRESCENT VALLEY ROBOTICS TEAM 955

CORVALLIS, OREGON

Latest update: July 19, 2012

“The objective of the academic eligibility rule is to complement member schools’ curriculum programs in recognition of the fact that interscholastic activity programs are an extension of the classroom. Academic standards help ensure a balance between activities and academic performance, promote the objective of graduation from high school, ensure that student participants are truly representing the academic mission of the institution, and allow the use of inter scholastic participation as a motivator for academic excellence. It is in the interests of the member schools and the students participating in athletics and interscholastic activities that these objectives be promoted during the entire school year.”

OSAA Eligibility Policy

Guidelines for Outside Student Eligibility

CV Robotics adheres to Corvallis School District 509J Code IBDJA: *Relations With Home-Schooled Students*

1. Team members must be enrolled as full time students at CVHS, or be home schooled as a resident of the CVHS district.
2. We do not recruit students outside CVHS. The students must come to us.
3. Home School Student Eligibility.
 - a. **Residence:** A home school student must reside in the attendance area of CVHS. This is OSAA required.
 - b. **Age:** A home school student must be age 13-18 when registering for CV Robotics. This would allow a student to have started first grade at 5 or skipped a year of school.
 - c. **Behavior and Performance:** A home school student shall be required to fulfill the same responsibilities and standards of behavior and performance, including participation requirements, of other students participating in robotics. The student shall also comply with all school requirements regarding travel, building use and use of materials for example, during the time of participation.
 - d. **Academic Eligibility:** A home school student must meet academic requirements as stated in OSAA Policy Article 27: Eligibility-Home School Students. These are specific tests and scores that correlate to the grading and class requirements of CV students.
4. Home School Student Application

A home school student interested in applying to CV Robotics will receive specific information regarding the programs expectations from a member of the executive committee. This information will include registration fees, necessary family participation (meals) , expected hours of student participation, opportunities for additional mentor or parent-volunteer

participation, and flower basket sales goals. A home school student meeting the above eligibility guidelines should submit:

- a. A letter and resume requesting membership on the team. (use leadership template)
- b. A parent/guardian letter of reference for their student's participation and clarification of the family's involvement with the team.
- c. A letter from a non-parent outside reference.
- d. Letter of reference from (or contact with) the coach or school principal.

The Executive Committee will evaluate the application materials and decide whether the applicant fits with the current CV Robotics needs and resources.

If accepted, the home-schooled student will complete all CV Robotics registration materials and pay the team membership fee.
