

Math 111: Trigonometry and Analytic Geometry

Spring 2024 – Section 1

Class meeting: M,W,F 11:00 AM - 12:20 PM at SCB 304.

Instructor: Dr. Tuan Pham

Email: tpham@byuh.edu

Office: SCB 311, telephone: 808-675-3044

Office hours: M, W, F 12:30-2:00 PM or by appointment

Canvas: <https://byuh.instructure.com/courses/1479199>

Course website: <https://web.engr.oregonstate.edu/~phamt3/Courses/S24-Math-111>

Prerequisite: none (recommended Math 110)

Credit hours: This 3-credit hour course approximates one hour of classroom or direct faculty instruction and a minimum of two hours of out-of-class student work each week for approximately 8 weeks.

Textbook: “*Precalculus: Mathematics for Calculus*”, 7th Edition by Stewart, Redlin, and Watson. WebAssign access is required. You can sign up through Canvas.

Calculator: Texas Instrument graphing calculators are suggested. Calculators are allowed for homework, quizzes, and exams, but cell phones are not allowed during exams.

This class will be participating in Inclusive Access this semester. “Inclusive Access” is the course content solution that is giving you access to the eBook and/or course materials on the first day of school at a lower price. To access the eBook and/or course materials, go to Canvas, click on VitalSource Bookshelf. From there you are able to access the eBook and/or coursework. If you have already purchased your book and don’t need access to the eBook and/or coursework, please be sure to opt out. The deadline to opt-out and avoid your student account being charged is 14 days after the first day of school, after which refunds will not be provided. This charge will be listed on your student account as a “digital fee” with the course name. The price of your course materials will sent to you directly in a separate email. If you have any questions or concerns, regarding Inclusive Access, please contact the textbook manager at textbooks@byuh.edu.

Course description: Exploring trigonometry, analytic geometry, circular functions, triangle relationships, identities, inverse trigonometric functions, trigonometric equations, vectors, complex numbers, and De Moivre’s theorem.

Learning Outcomes: Upon successful completion of this class, a student will be able to:

1. Understand and apply circular functions, triangle relationships, and trigonometric identities to solve problems in various contexts;
2. Analyze and solve trigonometric equations, including those involving inverse trigonometric functions;
3. Work with vectors and complex numbers to model and solve real-world problems;
4. Apply De Moivre’s theorem and analytic geometry concepts to complex numbers and geometric problems;
5. Develop problem-solving skills and logical reasoning by working with proofs and examples from the course materials;
6. Communicate mathematical solutions and reasoning effectively, both in writing and orally;
7. Utilize calculators and computers to aid in problem-solving, with a focus on the use of basic graphing calculators during exams;
8. Prepare for further study in calculus and other mathematics courses, recognizing the essential role of trigonometry;

Course goals: By the end of the course student's reasoning skills will be increased and they will begin to understand how to approach and solve problems. This course promotes the development of critical thinking and prepares the background for students to take Calculus I. The math department has established eight outcomes for graduating majors. The table below indicates which outcomes will be addressed in Math 111.

Program L.O.	Student L.O.	Institutional L.O.
Demonstrate proficiency in Algebra and Trigonometry necessary for success in Advanced mathematical studies. [high priority]	Students need this proficiency to understand problems and proofs, and do develop problem solving skills	Knowledge, Analysis
Demonstrate proficiency in Differential, Integral, and Multivariable Calculus necessary for success in Advanced mathematical studies. [low priority]	Techniques of integration, Differential Equations is the basis of this course and is the main component of it.	Knowledge, Analysis
Demonstrate content knowledge of both abstract and applied mathematical disciplines by stating definitions, salient theorems, and proofs of major theorems and concepts that are core content in upper division courses. [low priority]	Content knowledge will be expanded; definitions and theorems are key to understanding calculus and how they help us develop a living knowledge of mathematics.	Knowledge, Inquiry, Analysis
Organize and explain their knowledge of logic and mathematical content in the structure of original valid proofs. [low priority]	Proofs will be demonstrated by the instructor and examples will be presented in the book. Original proofs required of the student will be minimal.	Analysis, Communication
Communicate mathematical ideas effectively in both written and oral context. [high priority]	Students must be able to write solutions in a logical and cohesive manner; likewise, oral explanations are very important for the successful student.	Knowledge, Communication
Apply major definitions, theorems and algorithms in problem solving. [high priority]	Application problems appear in many chapters in calculus.	Knowledge, Analysis
Use appropriate technological tools while solving mathematical problems. [medium priority]	Students will gain a good knowledge of calculator use and computers to aid them in solving problems.	Knowledge, Analysis
Prepare professionally for graduate school or employment in mathematics or related fields. [low priority]	Applications of calculus are discussed throughout the course.	Knowledge, Inquiry, Service, Stewardship

Grading components:

Homework: 25%

Attendance: 10%

Quizzes: 5%

Two midterm exams: 20% each

Final exam: 20%

There will be opportunities for extra credit during the course.

Evaluation:

- **Homework:** all homework assignments are given and automatically graded through WebAssign. They are to be finished by the posted dates on WebAssign.
- **Attendance:** after the deadline for dropping the class, the instructor will check attendance every day of class. If you come to class 10 minutes late (or more), you will be given an attendance score of 80% for that day.
- **Quizzes:** quizzes will be given in class on Fridays. You are responsible for coming to class on time to take the quizzes. These quizzes are to test your understanding of recent topics.
- **Exams:** there will be two midterm exams and one final exam. The midterm exams will be given in the Testing Center through WebAssign. Midterm 1 will be during 5/23-5/24. Midterm 2 will be during 6/13-6/14. The final exam will be from **1 - 3:50 PM on Friday, June 28, 2024** at the regular classroom (SCB 304).

Make-up work and due-date extension: make-up exams will be given only in exceptional circumstances, with appropriate documentation, such as illness or family emergency. If possible, notify the professor as soon as you are aware of the issue. Extension of due dates for assignments may be considered under similar conditions.

Courtesy: Please be respectful and considerate of your classmates by not chatting during class time. Be on time and leave when the instructor dismisses everyone. Refrain from web-browsing, texting, and other such activity as it can be distracting to those who can see your screen.

Grade lines: the course grade lines will not be harder than the standard grade lines: A 100-93%, A- 92.99-90%, B+ 89.99-87%, B 86.99-83%, B- 82.99-80%, C+ 79.99 - 77%, C 76.99-73%, C- 72.99-70%, D+ 69.99-67%, D 66.99-63%, D- 62.99 - 60% and F < 60%.

Other Learning Resources:

- The instructor has office hours dedicated to help you. Don't hesitate to make an appointment if the office hours conflict with your schedule.
- Your fellow classmates are also a good resource. Form a study group and you will find it helpful.
- You can find peer tutors at the Math Lab, located in SCB 302. Online tutoring is also available. Check out their hours here: <https://mc.byuh.edu/math-lab>.

Student Academic Grievance policy:

Students, who feel that their work has been unfairly or inadequately evaluated by an instructor, are encouraged to pursue the matter as an Academic Grievance by following the steps found in the Academic Grievance policy at <https://catalog.byuh.edu/policies-procedures/grievances>.

Final Exam Schedules: Final exams are to be offered on the specific day and time as determined by the official final exam schedule. Students must plan travel, family visits, etc., in a way that will not interfere with their final exams. Less expensive air fares, more convenient travel arrangements, family events or activities, and any other non-emergency reasons are not considered justification for early or late final exams.

Honor Code: The Honor Code exists to provide an education in an atmosphere consistent with the ideals and principles of the Church of Jesus Christ of Latter-day Saints. Students, faculty and staff are expected to maintain the highest standards of honor, integrity, morality, and consideration of others in personal behavior. Academic honesty and dress and grooming standards are to be maintained at all times on and off campus. For specific information see <http://honorcode.byuh.edu>.

Discrimination: The University is committed to a policy of nondiscrimination on the basis of race, color, sex, pregnancy, religion, national origin, age, disability, genetic information or veteran status in admissions, employment or in any of its educational programs or activities. For specific information see the non-discrimination policy at <https://policies.byuh.edu>.

Title IX and Sexual Misconduct: The University will not tolerate any actions proscribed under Title IX legislation, specifically sexual harassment, sexual violence, domestic or dating violence or stalking perpetrated by or against any university students, university employees or participants in university programs. For specific information see <https://titleix.byuh.edu>. All faculty and staff are deemed responsible reporting parties and as such mandated to report incidents of sexual misconduct including sexual assault to the Title IX.

Title IX Office
Lorenzo Snow Administrative Building
55-220 Kulanui St.
Laie, HI 96762
Office Phone: (808) 675-4585
E-Mail: titleix@byuh.edu

Accommodating Students with Disabilities: Disability Services is dedicated to assisting students with disabilities by providing opportunities for success and equal access at Brigham Young University-Hawaii. We are committed to coordinating reasonable accommodations as outlined by Federal and State law. To learn more about available supports, go to <https://disability.byuh.edu>, call (808) 675-3518 or go to McKay Building 181 across from the Cafeteria. You may also email disabilityservices@byuh.edu with questions.

Mental Health Resources: As a college student, there may be times when personal stressors interfere with your academic performance and/or negatively impact your daily life. If you or someone you know is experiencing mental health challenges at BYUH, please contact Counseling Services at (808) 675-3518. Services are free and confidential. For more information, visit <https://counseling.byuh.edu/>. Free mental health self-help resources are available through TAO Connect. To access them, simply go to <https://us.taconnect.org/register> and sign in using your BYUH email address. In a crisis situation, or after hours, please contact BYUH Campus Safety at (808) 675-3911 or call 911 if you are off campus. You can also call the 24-hour crisis hotline at 1-800-753-6879 or contact the Crisis Text Line at 741-741.

Report a Concern: If you have a concern to report go to <http://about.byuh.edu/reportaconcern>. If you have reason to believe a student or dependent of a student is a danger to self or others please do one of the following depending on the urgency of the situation:

- a. Call 911,
- b. Call BYU-H Public Safety (675-3911),
- c. Report a concern to the Behavior Intervention Team.
